## Cover Letter

Dear Sir / Madam,

Via my professional network I learned about your need for a Software Application Engineer within Acme's Software and Solutions Group (job reference #1234) in Paris, France.

I am very interested in further discussing this exciting opportunities with Acme, and I believe that my education, professional experience and well-rounded employment background are appropriate for these positions.

After completion of my M.S. in Electrical Engineering, I worked in the Semiconductor Industry, as well as in Consumer Electronics and Telecom divisions for 8 years. My engineering efforts and expertise consistently met or exceeded company goals, yielding success in business development. I would like to continue and augment that success in the electronic industry, using my wide professional experience and academic background.

Attached is a copy of my resume, which more fully details my qualifications for the position.

I look forward to talking with you regarding engineering opportunities with Acme.

Thank you very kindly for your time in review of my resume and for consideration of permanent, full-time employment.

With kind regards,
